

DAURO IN NOBEL'S PRIZE BANQUET

This in not the First, Second ... but the Fifth time.

Dauro was present in 2001, 2003, 2004 and 2005. Chefs again decided to select Roda's olive oil in 2008 to season the Nobel Prize menu.

This is once again an honour for Dauro to be present at one of the most prestigious and long-standing banquets of the 20th century.

As every year since 1901 in the anniversary of Alfred Nobel's death on the 10th of December, the prizes founded by the Swedish inventor and industrialist are presented in a banquet where the King and Queen of Sweden and other members of the royal family are the honorary guests.

The banquet has been celebrated in the Town Hall of Stockholm since 1930, after a careful thought out selection of the best international gastronomy products.
